Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 30 ^{DAYS} MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in response to the application filed December 12, 2001.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-26 drawn to Semiconductor device, classified in class 257, subclass 791.
- II. Claims 27-32 drawn to Semiconductor device fabrication, classified in class 438, subclass 64.

The inventions are distinct, each from the other because of the following reasons:

Invention II and I are related as product made and process of making product. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)).

In the instant case, the product as claimed can be made by another and materially different process. For example, the process as claimed can be used to make other and materially different product, for instance, the land in the substrate can be used not only as an encapsulation location for the device but also as a latch up prevention scheme for transistors.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art and because of their recognized divergent subject

Art Unit: 2822

matter, and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Applicant is reminded also that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filled petition under 37 C.F.R 1.48(b) and by the fee required under 37 C.F.R 1.17(h).

Conclusion

3. **THIS ACTION IS MADE NON-FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this non-final action is set to expire THIRTY DAYS from the mailing date of this action.
